

Safety protocol:

In 2021, the following safety protocol is applied:

For your visit in the Climate gallery you need a green "Corona Pass"

Booking is obligatory and all entries require a reservation.

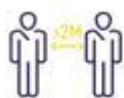

A maximum number of 10 participants is permitted per session. Visitors must respect the seating arrangements on entry and exit.

Body temperature is measured daily before entry.

Wearing a mask to protect both mouth and nose is mandatory except during your stay in the Climate gallery (while seated).

Keep a distance of one metre between you and people who don't live in your same household.

We aim to ensure the greatest possible air hygiene and access to the Climate gallery is therefore only permitted to guests wearing slippers. These are provided by the museum or visitors can bring along their own.

Camping mats, blankets, slippers and hot water bottles can be stored in the assigned lockers by each individual as personal equipment from the first to the last day of their visit.

Entry is not permitted to persons with symptoms of a cold, such as runny nose, cough, sore throat or high temperature (fever).

There are no breathing exercises.

No tea will be served during your stay. Participants may bring their own thermos flasks to drink.
